## Cooper Veterinary Clinic

12105 S. Indiana Ave., Lubbock, TX 79072

**Region:** #1 **Practice Setting:** Urban

**Practice Type:** Small animal exclusive

Cooper Vet Clinic is a small animal exclusive practice located in growing south Lubbock. We have CR digital radiographs, in house Abaxis lab machines, very modern ultrasound and great surgery monitors. The staff is great and very capable at doing vet tech work. Work week is a 4 day work week with alternating Saturdays. No after hour or emergencies. We see a lot of preventative medicine at Cooper Vet Clinic, but also strive to provide the best care possible to the sick patients. A current associate is very involved in reproductive medicine and the owners are interested in orthopedic surgeries.

## Small Animal Emergency Clinic

5127 Canyon Dr., Amarillo, TX 79110

**Region:** #1 **Practice Setting:** Suburban

**Practice Type:** Small animal exclusive

We are a night/weekend/holiday clinic—during the day during the week we are not open—with an average of 40 shifts per month; full-time is 10 to 12 shifts per month. Guaranteed salary of \$500 for a 12-hour shift with potential for a 25% production bonus. Scheduling can be flexible. While we don't offer a big benefits package, (no 401K, no paid vacation every year, no paid CE), we do offer health insurance and flexible hours. Our facility has up-to-date technology. We have a large support staff with many experienced technicians. There is a good mentoring program for less experienced veterinarians.

**Region:** #3 **Practice Setting:** Urban

**Practice Type:** Shelter – Mainly dogs & cats

Booth  
# 1

Fort Worth has a progressive animal welfare program that enjoys broad based support. A shelter medicine and surgical center in our North Animal Shelter opens in 2020. The live release rate has increased from approximately 30% in 2010 to over 90% in 2018. The division is led by a veterinarian, two staff veterinarians, and is supplemented by part-time veterinarians. There is a shelter medicine team of 10 vet techs, a supervisor, and a senior officer. Approximately 7,000 pets are sterilized, over 3,000 medical cases are seen, and approximately 14,000 pets receive preventative care each year.

We are a very busy, progressive, mixed animal practice devoted to our patients and quality medicine. We have a full lab, ultrasound, digital radiography and do all kinds of surgery. We do a lot of reproductive work on small animals, which includes surgical insemination and c-sections on all breeds. We have a low staff turnover due to a great retirement package that places 25% of salaries into the retirement benefits. The same retirement is available for the staff. This is a great opportunity for a new grad to further their education and broaden their skills.

We have a very progressive practice doing small animal and a large amount of equine work. We're a client-based practice as Dr. Thoni has been here for 37 years. We see approximately 50 small animal clients a day and 30+ horses a day. Dr. Thoni has invested in a large amount in equipment. Digital X-rays in small and large animal, multiple ultrasounds and several endoscopes. The clinic also has a equine surgery suite and an MRI in-house. No small animal emergencies. We're open Monday through Friday.

Very busy practice in beautiful northeast Texas. Small animal clinic is 10,000 sq ft, and was new in 2012. Large animal working/processing pens upgraded and expanded in 2017. Equine facility built in 2015. Because we see an enormous number and huge variety of cases, we are a prime spot for students and new grads to gain vast experience in a relatively short period of time. We have ultrasound, digital radiology, therapeutic laser, and a full suite of in-house lab equipment. Doctors rotate emergency call, but for our current clients.

We're a hometown veterinary practice in a rural area. We pride ourselves on a deep-rooted relationship with our community and value community involvement. We work Monday through Friday 8am to 5:30pm with weekends off. We take emergency on-call on a rotating basis, and we see an average of 2 calls per week. We see mostly small animals and horses. Our practice also includes small ruminants (sheep, goats, and deer), and we consult on cattle and herd health. We're looking for an associate that values rural life as much as we do.

8947 Bee Caves Rd., Ste. 206, Austin, TX 78746

**Region:** #7 **Practice Setting:** Suburban

**Practice Type:** Small animal exclusive

We're a family owned and run practice offering general holistic care to our local community. We believe that pets are a part of the family and we treat our patients and clients as a part of our extended family. Currently we take appointments from 9 am to 5 pm M-F and 9am to noon 1 to 2 Saturdays per month. We work with specialists that come in to our practice for specialty surgeries, ultrasounds, etc. We have a surgery suite, hospital area, and boarding facility. We take a holistic approach to veterinary medicine and Dr. Vandermause uses a variety of modalities such as traditional medicine, acupuncture, laser therapy, homeopathic and herbal remedies.

## South 40 Equine

4495 Lakeway Dr., College Station, TX 77845

**Region:** #7 **Practice Setting:** Rural

**Practice Type:** Equine exclusive

South 40 is a mobile equine sports medicine practice serving Brazos, Burleson, Grimes, Madison, and Robertson counties. Our practice philosophy centers around equine advocacy. We emphasize the exam, and meticulously work through findings from our musculoskeletal and moving exam to isolate and identify lameness in the equine athlete. We feel that imaging is the key to correctly identify problems, and guide treatments. We provide the latest in diagnostics modalities for our patients (radiography, ultrasound, endoscopy, oroscopy, gastroscopy, and laboratory markers, etc.).

## Big Spring Veterinary Diagnostic Hospital

3404 E. FM 700, Big Spring, TX 79720

**Region:** #9 **Practice Setting:** Rural

**Practice Type:** Mixed – small animal predominant

BVDH is a very busy small animal and equine practice with on-site digital x-ray, digital dental x-ray, ultrasound, blood work machines, MedRx Video Otoscope, and therapeutic laser. One of our core values is investing in our people and technology, consequently, significant time is spent on continuing education and training. Our veterinary family consists of three loosely connected hospitals that support each other personally and professionally. This collegiate relationship is critical to our ability to maintain our high standards of practice.
