We focus on providing affordable, high-quality wellness and preventive care for pets in DFW and Houston areas. We're open four days during the week from 9am-6pm and on Sat 8am-5pm. Our clinics see on average about 18-20 appointments daily. Our near future plans involve incorporating a centralized "hub" into each region that each of our satellite wellness clinics will refer patients for more advanced diagnostic and treatment capabilities.

We're adding to our staff this year and are seeking an associate who has a desire to move to the Austin area. Our goal is to provide you with the opportunity to receive a great salary and continue to develop your skills as a veterinarian. Our mentorship will continue to develop your training of surgery, medicine, and preventative medicine. We believe this adds tremendously to our mission of providing high quality medicine and surgery to our clients, as well as support to our profession. It is our goal to help veterinarians develop in both their professional and personal lives.

**Region:** #7 **Practice Setting:** Suburban

**Practice Type:** Small animal exclusive

We practice high-quality medicine and surgery and place a large emphasis on client education and service. The practice is divided between a small brick and mortar clinic and house calls. The clinic is fully staffed and has in house digital x-rays, Abaxis blood analyzers, forced air patient warming, heated surgical table, and five-parameter anesthetic monitoring. House calls are predominately preventive medicine, hospice, and end of life care. However, we'll examine a sick pet in the home if an owner is unable to make it to the clinic. Occasionally, this means we transport the pet for better care.

**Region:** #11 **Practice Setting:** Rural

**Practice Type:** Mixed animal - 50/50

We're a mixed animal practice with a commitment to providing the best quality medicine we can with an up-to-date, fully-equipped and staffed hospital. We have a full lab suite and are a beta site for Avimark and Abaxis. Digital and analog ultrasound, twp DR sound x-ray systems, high speed small animal dental unit and digital dental x-ray, full power Stryker orthopedic equipment plus much more. After hours calls average three per week, and we have no desire to expand hours of operation, or that number of calls. Hours are 7:30-6:00 M-F with 1/2 day off during the week, plus every other Sat. from 8-12.
